Expandable Weapons Racks (EWR)

The Expandable Weapons Rack (EWR) is the most economical and space efficient solution for the storage of weapons and peripheral equipment inventory. Designed and manufactured with intrinsic flexibility in order to accommodate both present and future weapon and equipment storage requirements. EWR remains the ideal solution for small or large-scale secured armouries and vaults in both land-based and shipboard installations.

With a full array of weapons components, many varieties of firearms (assault rifles, carbines, light machine guns, shotguns, and handguns) can be catered for. The EWR system can accommodate rifles double or triple stacked (one above the other). In addition, the EWR will allow weapons to be stored vertically, horizontally and even diagonally.

Expandable Weapons Racks (EWR)

Configurations:

The Single-Sided EWR system: is available in a standard height of 2135mm and two standard widths of 870mm and 1035mm with a depth of 425mm for a standalone bay.

The Double-Sided EWR system: is available in a standard height of 2135mm and two standard widths of 870mm and 1035mm with a depth of 750mm for a standalone bay.

General Specifications:

Height – 2135mm (84")

Width – 865 mm (34") and 1035mm (40")

Single Sided EWR – 425mm (16")

Double Sided EWR – 743mm (29")

Finish – Grey Santex – Compliant for land based and shipboard applications

Additional EWR Bays: are available to add-on in widths of 973mm and 810mm.

Major Features

- Heavy gauge steel construction
- Low floor space area for high volume weapons storage
- EWR can be reconfigured quickly and efficiently just by adjusting or changing components to suit other weapons
- Store firearms vertically, horizontally, or diagonally
- Sniper rifles and assault rifles can be stored with scopes and grenade launchers attached
- Handguns can be stored in removable packs with or without clip storage and individually locked
- All components can be secured to the EWR panels with regular or security screws
- All components are interchangeable with Weapons Storage Australia's Bi-Fold Security Cabinets, Tambour Door Security Cabinets, and Mobile Weapons Carts
- EWR can be free standing or secured to the floor or wall, and can be fixed to decks and bulkheads for shipboard armoury

Steyrs on Expandable Weapons Rack

The most flexible and efficient solution for the Storage and handling of Steyrs. Weapon Storage Australia EWR solutions can accommodate Steyrs with or without attachments.

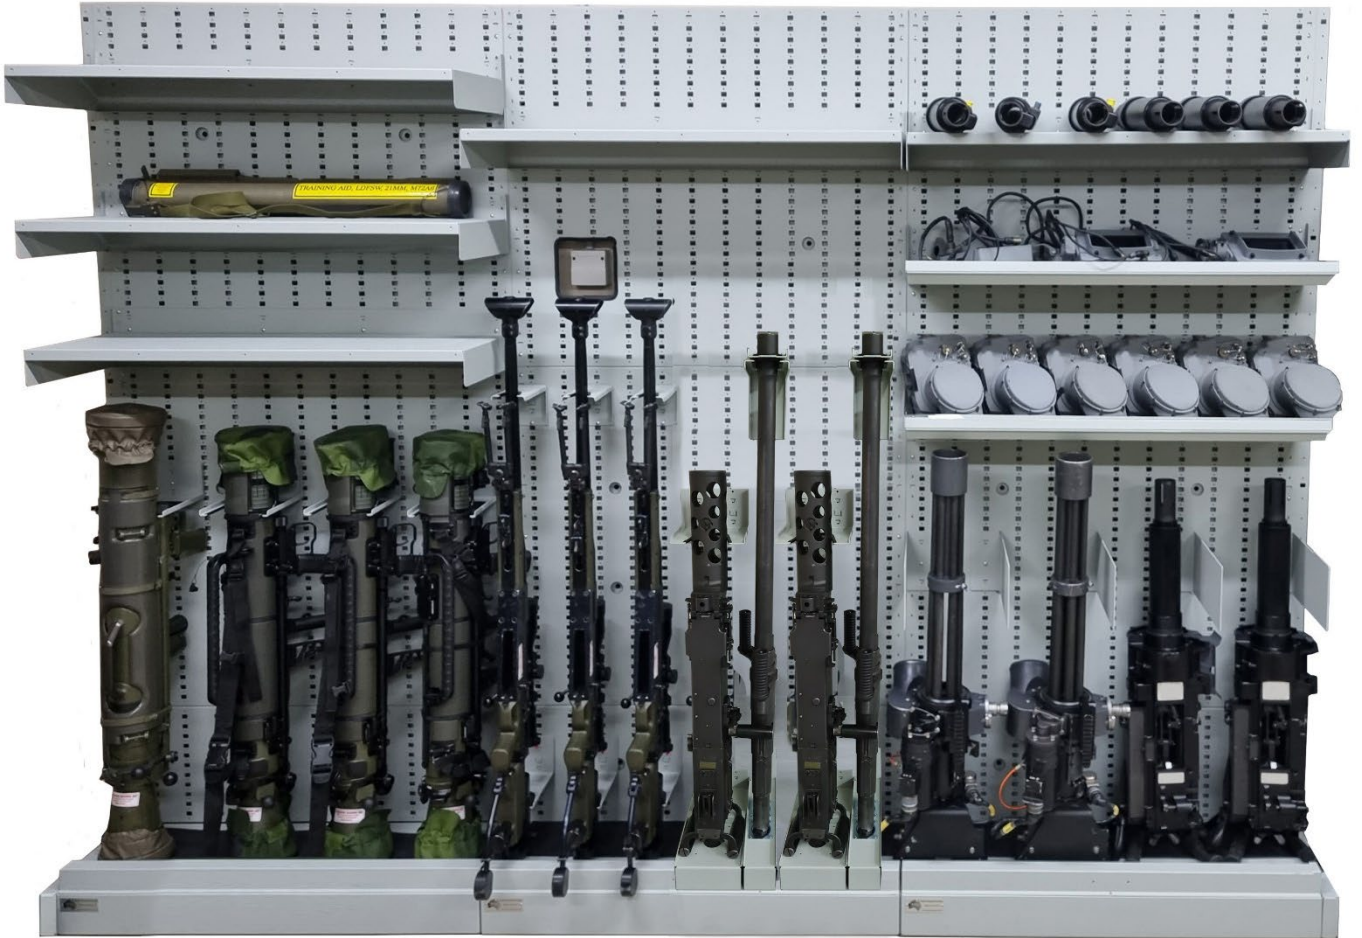

Store up to 36 Steyrs with the Single Sided EWR in a 0.41m² floor area. (without attachments)
Pictured 2 bays holding 72 Steyrs

Minimi and Mag 58 on EWR

Ideal for the Storage and handling of Minimi or Mag 58 and Spare Barrels, The EWR can accommodate up to 6 Weapons with 2 Spare Barrels each

Heavy Weapons

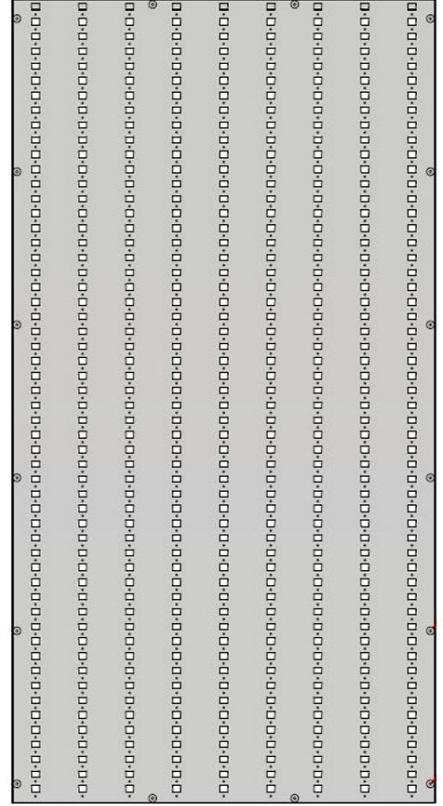

Integrated Weapon Storage Panels

Utilizing the Universal Panel template along with the WSA extensive range of weapons components, any weapons or ancillary equipment can be safely stored.

KEY FEATURES

- Manufactured from 16 Gauge Cold Rolled Steel with Reinforcing supports
- Compatible with the WSA range of components
- Combine multiple panels for any wall size
- Designed with mounting holes for installation on any surface
- Components fixed with security screws where required.
- Powder Coat Finish Black / Grey
- Off the shelf solution

Bi-Fold Security Cabinets

Bi-Fold Security Weapons Cabinets

Bi-Fold Security Cabinets are the ultimate secure access storage solution when space is limited. Bi-folding gates save approximately 35% in floor space compared to traditional gates helping to free-up aisle-space and reduce mobility issues.

The all-welded steel construction provides high-level security and is equipped with our unique cloistered built-in side-lift handles which have been designed to prevent intrusion. The interior back of the cabinet is fitted with our universal back panel system making the Bi-Fold compatible with all weapons' components.

The front of the Bi-Fold cabinet is secured by perforated Bi-folding gates that allow for the visual inspection of weapons while in situ.

Bi-Fold Security Cabinets also come with a multi-point locking mechanism and swing-arm padlock hasp.

Features:

- 35% floor space savings
- 7 point lock mechanism
- Heavy-duty welded frame
- Compatible with WSA's weapon components
- Stackable
- Pad lockable
- 4 Standard heights

Taser & Cartridge Security Storage

Tasers, Batteries, Cartridges, Holsters, Accessories And Charging

Taser Security Storage

WSA offer a number of off the shelf Taser Storage solutions for the effective Storage and charging of Tasers and Accessories

Taser Pac's, Drawers and integrated charging for use with EWR racks, Bifold cabinets and Safes, WSA offer flexible solutions to maximise the storage and effective use of Tasers and Accessories.

Compatible for use with the Taser 7, X2, X26P and all common tasers as used by police and corrective services Australia wide.

Taser Pac

Taser Pacs are the most versatile solution for the storage of tasers and Accessories. Compatible with our complete range of EWR, Safes, Bi-Fold and Tambour Door cabinets. The Taser Pac can be used in banks of up to 144 per Bi-Fold Security Cabinet for high volume applications or 1 Capacity units for low capacity storage / flexibility.

Available in 1, 6 and 8 Capacities the Taser Pac is designed to accommodate Tasers, Cartridges, Batteries and Accessories. Flexible and Future Proof the Taser Pac can be added to new or existing cabinets over time as operational requirements change over time.

Taser Pac

COMPATIBLE WITH BOTH THE X26P AND TASER 7

X26P Taser in 1 Capacity Taser Pac

Taser 7 in 1 Capacity Taser Pac

Lockable Security Drawer

Ideal for the storage of Taser Cartridges the Lockable Security Drawer is designed for use in the Bi-Fold Security Cabinet.

Compatible with both Taser X26P, X2 and Taser 7 Cartridges. Add as many drawers as required to accommodate the number to Cartridges to be stored.

Featuring:

- Heavy Duty Steel Construction
- Retractable Drawer with Lid
- 3 Point Locking
- Abloy Security Lock
- Optional Taser Cartridge Insert

M2 Rack

M2 50. Cal Rack With Barrel Holders

The M2 weapons racks are a compact all steel and unique secure storage system designed specifically for M2 .50 Cal light machine guns. It is manufactured to accommodate four M2 guns and eight barrels all under lock and key with padlocks (padlocks not included).

The M2 guns are locked and unlocked simultaneously by an all steel heavy gauge cylindrical security bar that simply slides through all four guns. Once the 'security locking bar' is unlocked and removed it is placed on two hooks that form a cradle to support the actual bar. In this manner access to the weapons is unimpaired for the weapons storage officer.

Dimensions: 54"H (1317mm) x 55"W (1397mm) x 12"D (330mm)

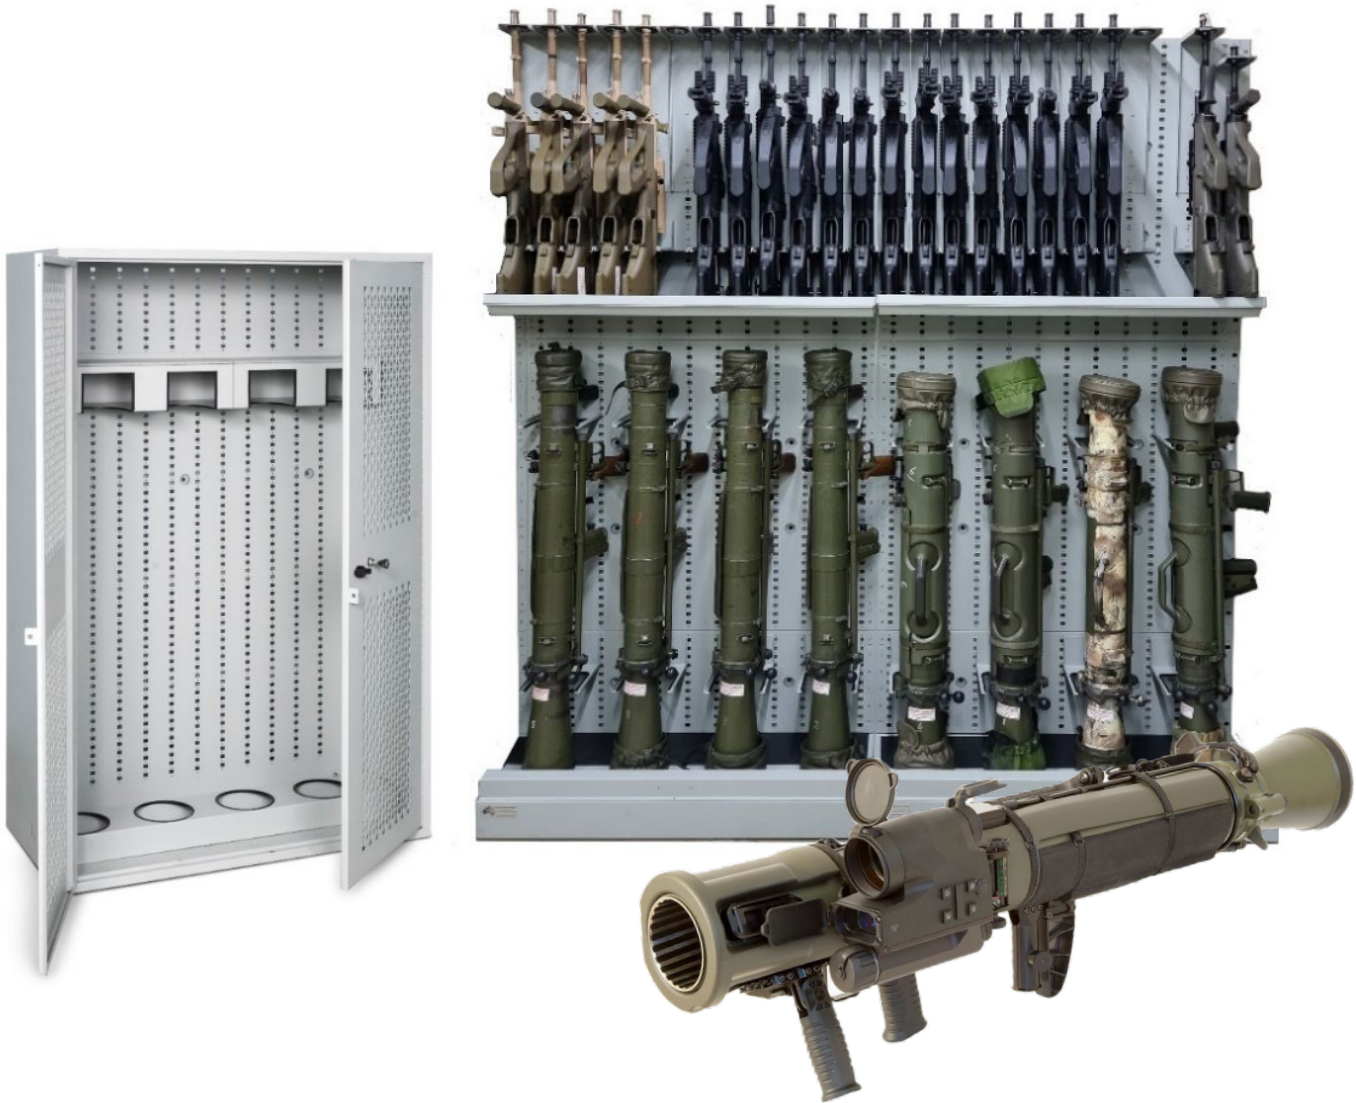

M2 on Expandable Weapons Racks and Bi-fold Security Cabinet

The M107A1 rifle

Mortar Storage

60mm and 80mm Mortars can be accommodated using our range of Bi-fold and SWR Security Cabinets

60mm Mortar Tube Storage

7 Capacity with specially designed upper and lower supports.
Designed for use with 48" SWR.

81mm Mortar Tube Storage

5 Capacity with specially designed upper and lower supports.
Designed for use with 64.5" SWR

Tethered and Bluetooth Training Weapons

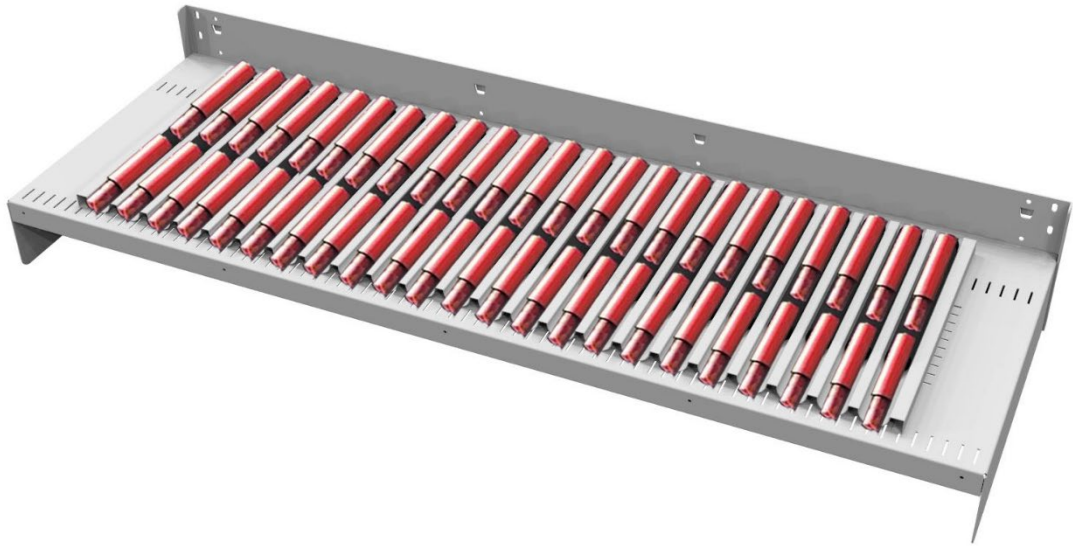

Weapons Storage Australia's Systems Cater for the storage of Tethered, Bluetooth and Training Weapons as used in Training and WTSS Weapon Training Simulation System facilities.

BFA Blank Firing Attachments

Compatible with our complete range of Racking, Bi-fold and Tambour Door Cabinets and Safes the Blank Firing Attachment can be accommodated in a variety of ways across our complete range of storage products.

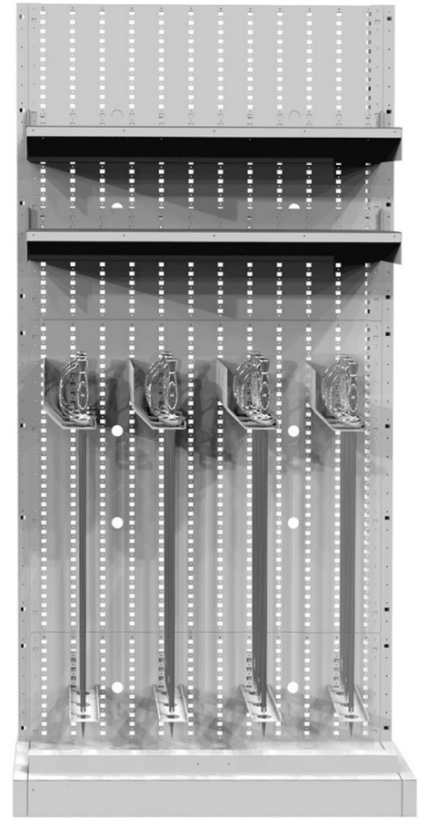

Pictured: 46 BFA's on a 40" Shelf

Sword Storage

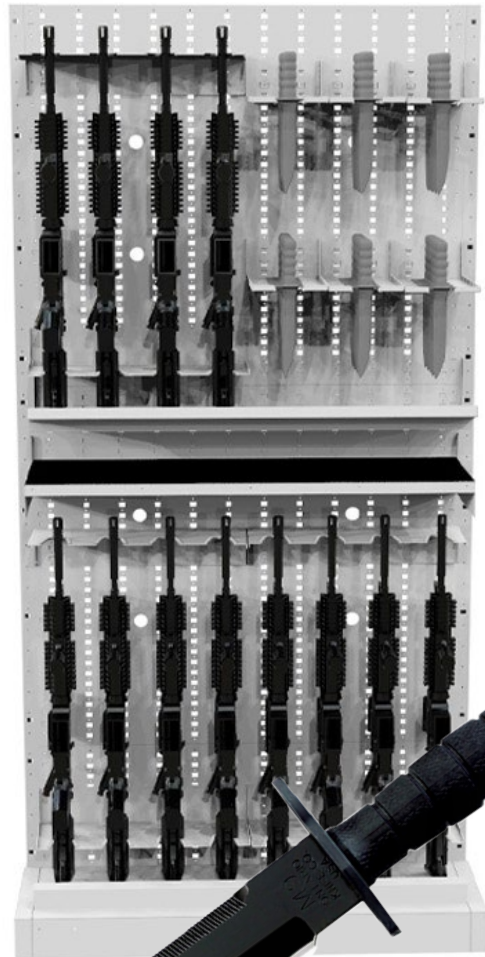

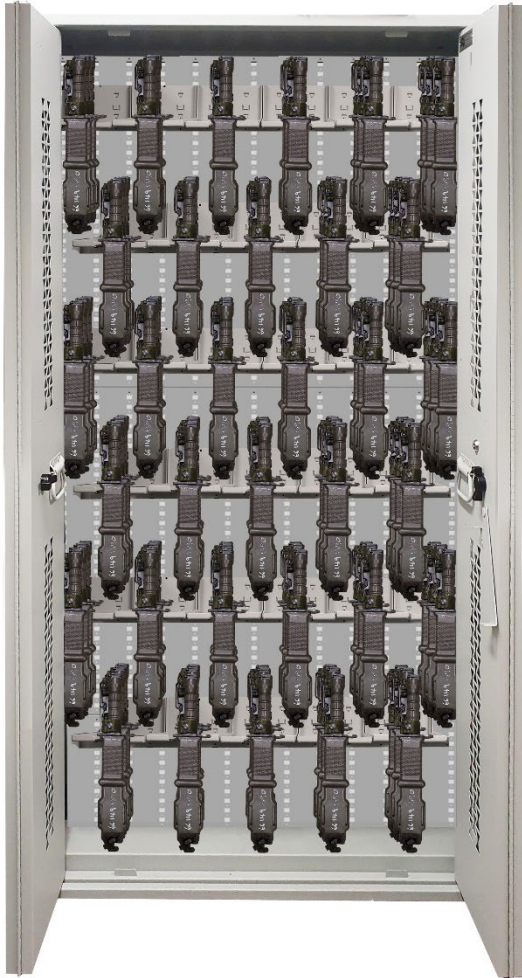

The 3 capacity sword component is ideal for use on Expandable Weapons Racks for the storage of Ceremonial Swords

Pictured: 12 Swords with 12 Steys and 12 Swords with 2 Shelves

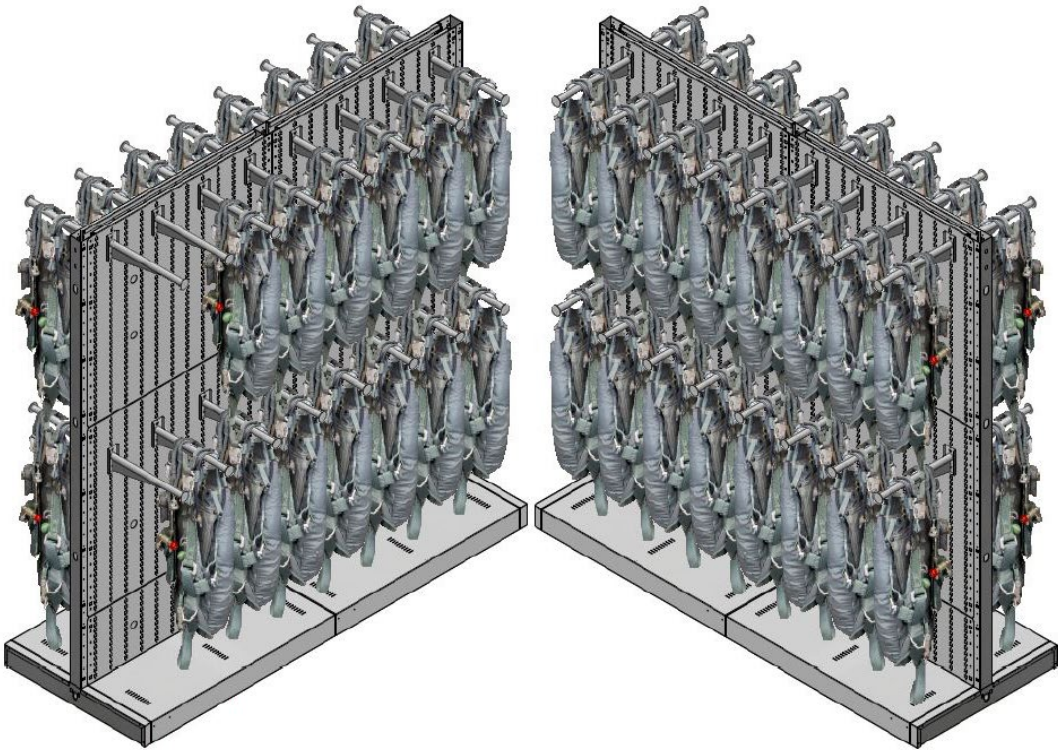

Bayonet Storage

The Bayonet Storage component is compatible with our range of EWR, Cabinets and Safes for the efficient storage of Bayonets

Parachute Storage

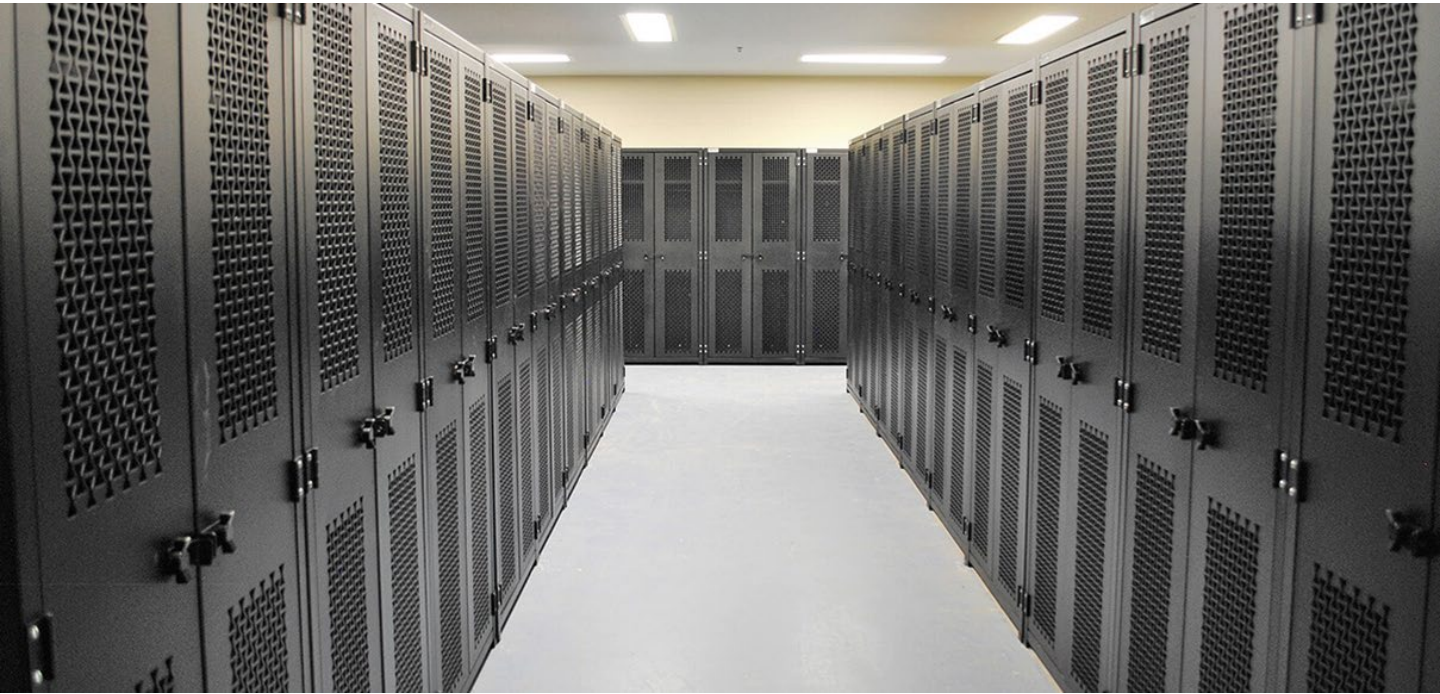

Used in conjunction with the Expandable Weapons Rack the Hanging Bar and Flat Shelf are designed to accommodate Parachutes, Helmets, and Equipment as used by Paratroopers and Special Forces.

MULTIFILE

Gear & Equipment Lockers

TA-50 Gear Locker

This locker is designed for lots of gear storage. The TA-50 Locker comes with a pre-installed heavy-duty wardrobe shelf with 3 hooks and a hanger bar. It also includes two columns of notches in the back panel to accept weapon storage accessories – the rest is wide open. Over 45 cubic feet of storage is perfect for large gear bags or any other storage requirement.

The all-welded steel locker has perforated sides and gates for easy visual inspection and ample air ventilation. The gates are secured with a multi-point locking mechanism, including a padlock hasp.

There's no assembly required and no bolts to tighten over time. The fully-assembled TA-50 Locker will arrive with a powder-coated black Sandtex finish.

Available sizes:

78" H x 42" W x 24" D

198 cm H x 107 cm W x 61 cm D

Two Teir TA-50 Gear Locker

Two-Teir TA-50 Lockers

The Two-Teir TA-50 Gear Storage Locker has the same great features with two individual locking compartments in the same footprint as the standard TA-50 Gear Storage Locker. They are great for team storage applications, individual lockers or separating items from one another in storage.

Ventilation

Store your damp or wet gear in our full-ventilated TA-50 Gear Storage Lockers. The perforated gates allow for plenty of ventilation which ensures your valuable gear doesn't get musty and moldy. TA-50 Gear Storage Lockers are frequently used for wet suits and scuba gear.

Laptop / Tablet Charging Lockers

Multifile Charging Lockers are Manufactured to Australian safety requirements, using Australian sourced electrical components. Ideal for charging laptops and other portable electronic devices

Available with **Single GPO or USB Type-A & Type-C**. Each compartment features its own charging outlet. All outlets are protected by a thermal overload switch.

Locker Options:

- **Open Locker** – 10 individual charging compartments without doors *(Pictured)*
- **One Door Locker** – Single lockable door which secures all 10 charging compartments.
- **Ten Door Locker** – 10 separate charging compartments each with their own lockable door.

Light Armour Police Vest Locker

This perforated locker is used by front-line NSW Police to store their Light Armour Vests. These vests protect against knives, compound bows, pistols, small calibre rifles and shotguns. Two heavy duty hanging rails allow multiple vests to be stored in a secure steel ventilated locker.

Locker Features

Australian Made from heavy gauge zinc steel
Won't Sweat or Rust in humid environment.

- Keyless electronic combination lock, ten digit keypad with manual key override
- Perforated door, back and side panels (22mm squares)
- 2 x 25mm diameter chrome plated hanging rails
- Welded frame provides strength and stability
- Perimeter door surround prevents the door from being forced inwards
- Full length internal door reinforcement for added strength
- 180 degree opening door or easy access
- Black Textura Powder coat finish
- Lifetime Warranty

Keyless electronic combination lock

Optional Heavy Duty Vest Hangers
60Kg Load Capacity

Dimensions

External: 1803mm H x 450mm W x 550mm D

Mobile Storage

The Mobile Weapons Cart are the go-to transport solution for police and militaries around the world. Easily transport up to 20 long guns from an armoury to a training facility, vehicle, gun range, or use the Tank to transport 48 long arms - the choice is yours.

The heavy-gauge steel cart is durable, yet light enough to easily maneuver through hallways and doors with the welded steering handles and four heavy-duty wheels (two lock). Both sides of the cart are made using our universal panel and the cart is compatible with over 50 of our weapon storage components - so you can transport almost any weapon.

One cart can handle all of your weapon storage needs as you can quickly reconfigure the component layout by changing their location, adding new components or removing others. Simply slide the components in and out of the back panel to transport 10 long guns per side or fill the cart/Tank with sidearms and accessories. Check out our seismic components specifically designed for safe transport at www.weaponsstorage.com.au.

The carts are powder-coated with a black Sandtex finish for added durability.

Both the cart and Tank are fully mobile and will fit through most armoury doors.

Mobile Tank with double-sided storage of 48 Steyr's
